

**Agency Name: Unified Health Solutions**

**What we need:**

*Equipment*

1. Color Laser Printer
2. Multi-Media Projector
3. Educational Software
4. Fundraising Software

*Web Site*

5. Assistance with training staff how to update the website
6. Assistance with the continued development of the UHS website

*Volunteer – Software*

7. Assistance with Database Development
8. Volunteers to staff Computer lab

**If Volunteer time, estimated duration of need:**

1. NA
2. NA
3. NA
4. NA
5. 1-2 weeks, then the ability to call someone with our questions
6. 1-2 weeks, then the ability to call someone with our questions
7. 50+ hours to assist with the update of existing databases and help create others, then ongoing help with questions as they arise
8. ongoing, 4-6 hours per week

**How we will support the gift on an ongoing basis:**

1. We are able to maintain the equipment, but grant requirements do not allow for us to make capital purchases.
2. We are able to maintain the equipment, but grant requirements do not allow for us to make capital purchases.
3. Our staff has the ability to learn and load the software, just not able to purchase updated software for our computer lab.
4. Our staff has the ability to learn and load the software, but unable to purchase the costly software.
5. Our staff has the basic knowledge of website development, with this additional training they will be able to keep up with the site.

6. With the training and the ability to ask a skilled individual questions, we would be able to keep the site up to date.
7. We have staff skilled in basic design and queries, but need help with the more complicated database functions.
8. We have the staff to bring the students, but they aren't always computer savvy.

### **How the gift will support our agency in helping the community:**

1. A color printer will allow our agency to create more creative and informative brochures, flyers and handouts for all of our programs.
2. A projector would allow our agency to provide a different level of presentations in our after-school programs, present information to the schools and communities in which we serve.
3. The educational software will help assist at-risk youth work on their homework, assist in the preparation of proficiency test and give them one more educational learning option.
4. The fundraising software would provide a means to track those that support our agency so that we can continue to grow and provide services to children and families within our community.
5. The training of our staff to update and expand our website, would mean that would could utilize these funds elsewhere for programs.
6. Our website is an additional source of information to the community, through this tool we can provide education and resources for children and their families.
7. Our agency utilizes databases in almost every program we offer. These databases are used for our prescription assistance program, after-school programs for at-risk youth, and teens preparing for the workforce. By being able to better utilize the functions of the database programs we can better serve all of our clients.
8. Our computer lab serves hundreds of students every year, without this lab some children/youth would have little if any access to computers to assist them learn and grow.
